### WHY PEOPLE HAVE HAIR?

Many people wonder why we have hair on our heads. Do we need hair?

We have hair for important reasons. Hair keeps our brain safe. It keeps us warm in cold weather. It also helps to cool us down when it is too hot outside. Hair keeps UV rays away from our skin. UV rays are not healthy for our skin. Hair can be like whiskers to warn us of something dangerous.

In the past, hair probably helps people choose the right partner. These days it is not so important. But we have hats. They can do the same job as hair.

### Did You Know That

- We live from 7 to 10 years or longer
- We require the same long-term care as cats & dogs
- We're not "starter pets"
- We can't tolerate extreme heat/cold
- We must be provided with shelter
- We prefer to live indoors
- We are natural chewers
- We love to play, so give us some toys

Bottom Line: WE'RE HIGH MAINTENANCE!
