ATIVIDADE DE MATEMÁTICA

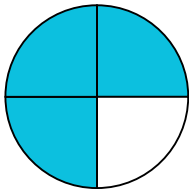

Estudante: _____ Data: ___/___/_____

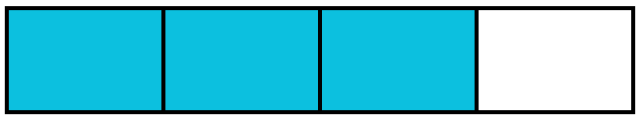

Professor (a): _____ Turma: _____

Escola: _____ TUDO SALA DE AULA

75% representa 3/4 (três quartos) de uma quantidade.

Isso significa que, quando dividimos algo em 4 partes iguais, três partes correspondem a 75% do total.

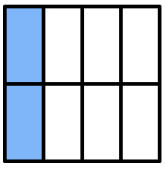

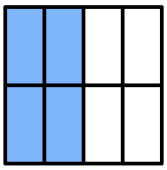

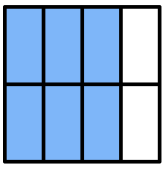

$\frac{3}{4} = 75\%$

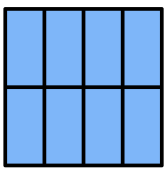

EXERCÍCIO

1 Observe as indicações a seguir e assinale aquela que corresponde a 25% do total.

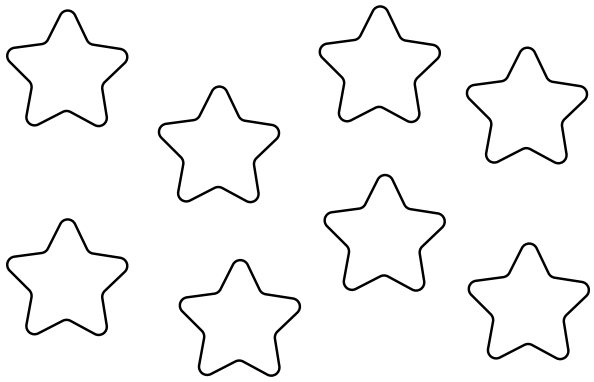

a) 

b) 

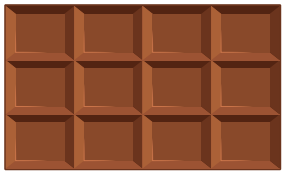

c) 

d) 

2 Conte a quantidade total de figuras abaixo e pinte aquelas que correspondem a 75% do total.

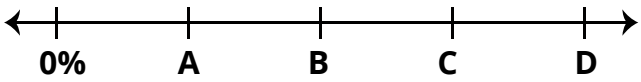

3 Veja a barra de chocolate abaixo.

Para comer 75% da quantidade total de chocolate, quantos pedaços uma pessoa deverá consumir?

4 Analise a reta numérica abaixo.

Nessa reta, o ponto C representa qual porcentagem?

a) 25%

b) 50%

c) 75%

d) 100%
